SAC Library Instruction

DO YOUR STUDENTS NEED RESEARCH HELP?
EVEN THE MOST SAVVY, SMARTPHONE-ENABLED STUDENT IS LOST WHEN IT COMES TO FINDING, EVALUATING & USING ACADEMIC INFO

BOOK A LIBRARY CLASS

STEP 1
Go to Library Home > Library Instruction > BOOK NOW

STEP 2
Pick a classroom. Select an available date/time slot.

STEP 3
Share your assignment learning outcomes.

WHAT HAPPENS NEXT?
Your library class is now booked. The Library Instruction scheduler will assign a library faculty member to work with you and your students. This librarian might contact you if there are questions about your assignment learning outcomes.

JUST THE FACTS, MA'AM

LEARNING OUTCOMES
In Spring 2010, library faculty began assessing student learning outcomes during each library class. The number of students performing at an "excellent" level shot up significantly the following semester.

Spr 78% > Fall 85%

DID YOU KNOW?
Students polled during library classes say that they prefer to use paper books over eBooks for academic research.

LIBGUIDES SHOW THE WAY
LibGuides are a big hit with students. Usage has increased from 90,712 to 156,168 hits within the last 3 years.

LIBRARY ANXIETY
Inside Higher Ed reported on a two-year anthropological study of student research habits which shows that students are in dire need of help from librarians, but are loath to ask for it.

Students who had attended library classes showed more research proficiency than those who had not. Their library anxiety levels also decreased.
